

PE at Mansbridge

Although the school must teach the national curriculum. It is about how we interpret this curriculum and what we give priority to.

Aims

The national curriculum for physical education aims to ensure that all pupils:

- develop competence to excel in a broad range of physical activities
- are physically active for sustained periods of time
- engage in competitive sports and activities
- lead healthy, active lives.

Planning

- Yearly overview detailing which sports and units are to be covered by each group.
- Medium term plans detailing the content and intentions of each lesson.

Teaching

Teaching is focussed on providing children with broad and balanced curriculum enabling them to participate in wide range of sports and develop the necessary skills. In Key Stage 1, lessons are tailored around supporting the children to develop a variety of skills embedded through games. This is then developed in Key Stage as they apply what they have learnt to a range of different sports.

Measuring impact / assessment

Each skills is assessed in the lesson against the learning objectives. This is then recorded on the assessment document at the end of each unit.
